WEB-GUIDE RETROFIT SOLUTION

For:

QUAD TECH (QTI) WGS 4000
FIFE CDP-01
MAXCESS D-MAX

DCOS is recognized as the most creative and flexible retrofit-solution provider in the industry, we are now excited to present a new development.

GIVE YOUR OLD WEB-GUIDE A NEW LEASE OF LIFE AND ADD NEW FUNTIONALITY: **PRINT POSITION CONTROL**

The following system are replaced in the retrofit:

- The motor of the FIFE actuator
- The encoder of the FIFE actuator
- The home position sensor
- The Control unit WGS 4000, CDP-01 or D-MAX
- The FIFE fork sensors
- The FIFE fork sensor transport bar
- Cables

Yes, this retrofit includes all electrical parts!!

The new system is:

- Based on the intelligent PTC7 camera, part of the DCOS Inspection system family and well recognized for industry leading print-to-cut and web alignment performance
- Supports three control modes:
 - **Web edge control**
 - **Web center control**
 - **Print position control (reading a mark in print)**
- Standalone or integrated in press control system
- Full remote access
